

# Welcome to HPFS Sixth Form

## Welcome from the Principal

Continuing your education at Heyford Park Free School means that you will enjoy a learning environment that is designed to personally support, challenge and inspire you to successfully complete the next stage of your education, and prepare you for university or graduate training in employment. We are committed to the vision of Heyford Park Free School: knowing each of our students well; ensuring excellent academic achievement and equipping our students with a “can do” attitude. Each of our students will be supported and challenged to contribute meaningfully to their school and the wider community.

The HPFS Sixth Form is about providing the chance to develop as an individual. Our students will be expected to contribute to their community through social enterprise and community service. A Global Challenge will offer the opportunity to engage with a life changing experience, such as working closely with local and national partners.

Our Sixth Form will be small, and focused on ensuring that we can provide a personalised approach for each of our students, because we will know them well. As an intimate Sixth Form, our aim is to provide students with the opportunity to take A Levels or equivalent qualifications, ensuring they can successfully progress to degree level qualifications or directly into the workplace.

Employers are looking for young people with outstanding academic achievement, but they also want students who have well developed employability skills, as well as a strong academic background. Students will follow a pathway that develops employability and leadership skills. This will be supported by information and guidance that enables sixth form students to maximise their opportunities, in both the world of study and employment.

Our students will have a genuine voice at HPFS Sixth Form. Already students in year 10 and 11 have informed our curriculum offer. Our Student Leadership Programme will not only be used to develop leadership competencies, but to inform decision making in relation to the Sixth Form.

Please come to one of our Open Evenings, or arrange a meeting with me to discuss the opportunities available at our Sixth Form.

Karen Healey

(Principal)
