

Enrichment Opportunities

Industry and Enterprise Guidance

We have extensive partnerships with both the Local Enterprise Partnership, as well as the business community, we hold strong ties with Russell Group universities. Our partnerships mean that we can support students as individuals, by providing expert advice and experiences, on which to base decisions regarding students and their future in education and industry.

Developing Community Spirit Through The World Challenge!

Our Global Challenge is a life changing opportunity that will be on offer to our students. Through the world challenge they will contribute to the development of a community abroad, helping them to develop an understanding of the culture. This will enable our young people to work as a team and to give back to others, but also to learn crucial cultural values. Throughout our Sixth Form students will be expected to give back to their school and wider community through engaging in voluntary work and social philanthropy.
